

EXPRESS DUAL 4000

Reliable. Unsurpassed warranty

Safe. Ergonomically designed for operator safety

Accurate. Delivers a clean cut to microscopic tolerances

Value. Offers substantial whole-life cost savings

Speed. Delivers a 15-minute turnaround, floor to floor

Versatile. Use with any make, type and size of mower

Ease. Let the machine work for you

The Express Dual 4000 automatically grinds mower reels in situ without the need to disassemble the mower. The membrane touch control panel, speed loading system and automatic traverse feature ensures rapid turnaround and improved workshop safety.

Express Dual 4000 is renowned the world over for superb grind quality, lightning speed, ease of use, exceptional reliability and long life. The chassis height is ergonomically built for operator comfort. A new look for Express Dual — improved safety enclosures offer dust and noise containment.

Unique auto-cut provides accurate finish, eliminating the need for lapping and extra relief thereby dramatically reducing maintenance costs and improves the health of your turf.

- World's fastest and most accurate reel grinder
- Grind in-situ, no need to remove bedknives or rollers
- Intuitive infeed balance display to ensure a parallel grind
- Fast turnaround (Greens units: 5 minutes, Fairway units: 15 minutes floor-to-floor)
- Options: Vacuum system; Sound insulation pack; **Express Relief**

Guarding System

The Express Dual safe guarding system cuts down on noise and pollution, providing minimal interference with machine operation.

Table top design

The Express Dual table top design enables rapid and easy loading of cutting units, and provides a handy work space in conjunction with the Express Lift Table.

Membrane Control Panel

Intuitive operator panel ensures reliable, consistent operation so increasing productivity.

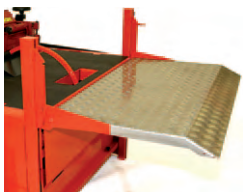

Universal mounting

Multifix mounting brackets and front roller Vee brackets for quick and efficient clamping options.

Supplied with all tools and accessories

Integrated tool drawer for convenient storage of necessary tools and parts.

Lift Table

Bernhard Grinders patented Lift Table is ergonomically designed for operator safety. With a lift capacity of 250 kilos, operators don't have to perform any heavy lifting.
